

## CR-4KR™

SOLID STATE MEDIA CRACKER

### KEY FEATURES:

- Support existing security procedures to meet NSA/CSS and DoD requirements for the destruction of information on solid state memory.
- Effortlessly open cell phones, tablets and solid state media to harvest memory-containing circuit boards for destruction.
- Separate batteries from media safely and efficiently.
- Automatic with adjustable chamber to accommodate a wide range of solid state media sizes.
- Use of the CR-4KR™ will extend the lifespan of disintegration equipment by reducing wear and tear on grinding components.
- Prevent common injuries that result from the use of alternative disassembly methods such as power drills, hammers, screw drivers and brute force.

### EASY OPERATION:

Simply turn it on, adjust the chamber size, insert media and press start. An indestructible ram descends upon the media with the right amount of force to crack open the outer casing. The CR-4KR™ accommodates all common solid state media types, dimensions and casing materials.

### PERFORMANCE:

The CR-4KR™ features an indestructible ram and simple, push-button operation. A load meter guides the operator in achieving the optimal amount of breakage (enough pressure to release the circuit board without over-crushing to an extent when the battery becomes a fire risk). The interlocking safety door protects the operator from flying debris and a set of handheld pry tools are provided for minor finish work. Operators are advised to wear puncture-resistant gloves and safety glasses (not included).

Technology	Portable device uses force to physically crack open solid state drives
Operation	Automatic (push button)
Media Size	Accommodates all mobile phones and tablets up to 7.75" x 12" x 1" (197mm x 305mm x 26mm) and solid state drives up to 2.75" x 4" x 0.375" (70mm x 102mm x 10mm)
Cycle Time	Media dependent
Duty Cycle	Continuous
Power	120V/3A or 230V/1.5A
Acoustics	The CR-4KR itself is silent; cracking and popping will be heard from the media as it's crushed
Dimensions	17.9" x 18.3" x 23.3" (455mm x 465mm x 592mm)
Weight	96 lbs / 43.5 kg
Included	Handheld pry knife set and cleaning brush.
Manufacturer	Made in the USA by Data Security, Inc. 1-800-225-7554 www.DataSecurityInc.com
